

**CITY OF OSAKIS**  
**VARIANCE APPLICATION**

Please read the variance application in its entirety before submitting the application. The Board of Adjustment meets the last third Thursday of the month. Depending upon publication timeline requirements, your application may be scheduled for the following meeting.

**WHAT IS A VARIANCE?**

A variance is a legally permitted deviation from the provisions of the ordinance as deemed necessary by the Board of Adjustment when the strict interpretation of the Ordinance would create a practical difficulty and be impractical because of circumstances related to lot size, shape, topography or other characteristics of the property. The deviation from the Ordinance, with any attached conditions, must still be in keeping with the spirit and intent of the Ordinance. Variances cannot be given to create a land use that is not permitted in a zone.

**APPLICATION:**

- A. Applicant shall complete the Variance Application provided by the city.
- B. Application shall be accompanied by a site plan drawing complete with, at a minimum, the information from the Variance Checklist.
- C. Application shall be accompanied by an application fee of \$400 made payable to the City of Osakis. **This fee does not cover the Building Permit, which must be filed separately, if necessary.**

**REVIEW:**

- A. The Zoning Administrator reviews the application for completeness and assigns a reference number to the application, plans, and any other attachments. The Applicant will be notified within ten days if additional information is required to complete the application.
- B. After receipt of a completed Variance Application and supporting documents, the Zoning Administrator shall schedule a public hearing date on the Board of Adjustment agenda for the earliest possible opening. Applicant will be notified by mail or email of the date and time of the public hearing.
- C. The Zoning Administrator will prepare a Staff Report on the application. The Staff Report will be available for public review by request of the Zoning Administrator, typically one week prior to the scheduled meeting date.
- D. The Zoning Administrator may conduct a site visit of the property to familiarize himself or herself with the property and to verify that the requirements of the Ordinance, such as setbacks, can be met.
- E. The City Fee Schedule is based on average processing and review costs for all applications. When costs exceed the original application fees, the Applicant shall reimburse the City for any additional costs. Such expenses may include, but are not limited to, payroll, mailing costs, consultant fees and other professional services the City may need to obtain in reviewing permits. The City may withhold final action on any application and/or hold the release of such permits until all fees are paid.

**ACTION:**

- A. The Planning Commission shall hold a public hearing on the variance application.
- B. At the conclusion of the public hearing, and after consideration of the testimony presented, the Board of Adjustment shall make a recommendation on the application. The application can be approved, denied, or tabled in order to gather additional information. Conditions can be placed on an approved variance as long as they are directly related to and bear a rough proportionality to the impact created by the variance.
- C. The recommendation is then given to the city council. The council shall review the recommendation and have make a final decision on the application.

The Applicant should be prepared at the public hearing to explain the unique practical difficulty for the proposed variance. A practical difficulty is defined as a condition whereby the property in question cannot be put to a reasonable use if used under conditions allowed by the official controls, the plight of the landowner is due to circumstances unique to his property not created by the landowner, and the variance, if granted, will not alter the essential character of the locality. Economic considerations alone shall not constitute a difficulty if reasonable use for the property exists under the terms of the Ordinance. Please complete all the following questions:

(1) Discuss your current use of the property and the reason for your variance request:

---

---

---

---

---

(2) Describe the effects on the property if the variance is not granted:

---

---

---

---

(3) Describe any unique physical limitations that exist on your property, not generally found on others, which prevent you from complying with the provisions of the current ordinance:

---

---

---

---

(4) Discuss alternatives you considered that comply with existing standards. If compliant alternatives exist, provide your reasoning for rejecting them:

---

---

---

---

(5) Discuss alternatives you considered that would require a lesser variance. If you rejected such alternatives, provide your reasoning:

---

---

---

---

(6) In your opinion, do you think the granting of your variance request would alter the “essential character” of the neighborhood/area?:

---
